

LEADERSHIP DURING CRISIS

INTERNATIONAL REACTIONS TO THE COVID-19 PANDEMIC

Lydia Brewer
Sept. 27th, 2020

let's talk about...

me :)

- recent graduate; currently working as an admin. assistant at a law firm
- from CT; went to school in Philadelphia
- enjoys reading, practicing yoga, baking and relaxing

my international experience :)

- havana, cuba; summer of 2019
- studied culture and cuban life
- changed my entire outlook and career plans

let's talk about...

this presentation :)

- an opportunity to...
 - learn about different countries responses relating to COVID-19
 - discuss what has and hasn't worked
 - reflect on the past, looking to the future
- understanding the nuance of...
 - differing forms of government leadership and how this changes their responses

let's talk amongst ourselves...

discuss your personal
thoughts and feelings

discuss your experiences from
the last six months

discuss your fears and
hopes for the future

breakout rooms and share out :)

current trends

global deaths

979,862

global cases

32,068,225

global recoveries

22,059,084

united states deaths

202,692

projected global deaths by 1/1/21

2,518,134

current trends pt. 2

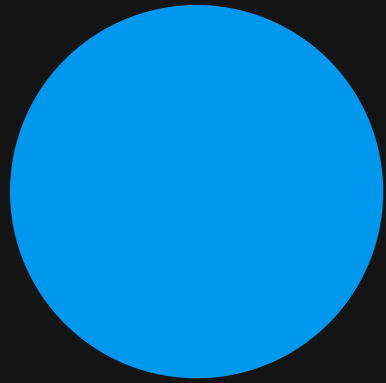

- Many states across the world are starting to see evidence of a 2nd wave
- Novavax, a US-based vaccine company begins the final round of COVID-19 testing in the UK
- North Korea is believed to have a shoot-to-kill policy relating to COVID-19
- Many schools, colleges and universities are reporting cases and outbreaks, leaving no choice but to move to remote learning
- Treasury secretary Mnuchin and Speaker Pelosi have agreed to resume talks about a new stimulus package

what will we discuss ?

07

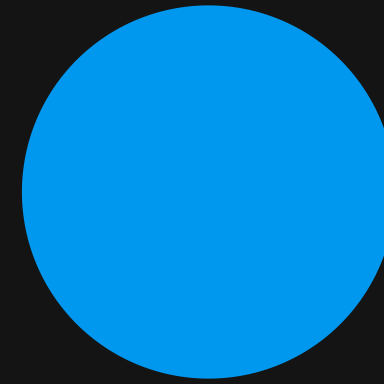

what works

what doesn't

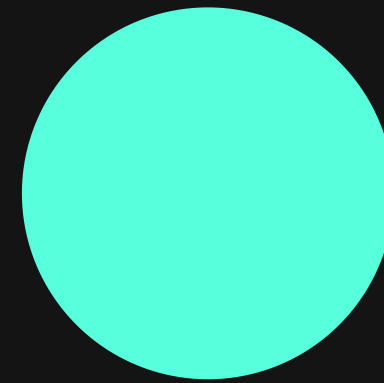

positive examples

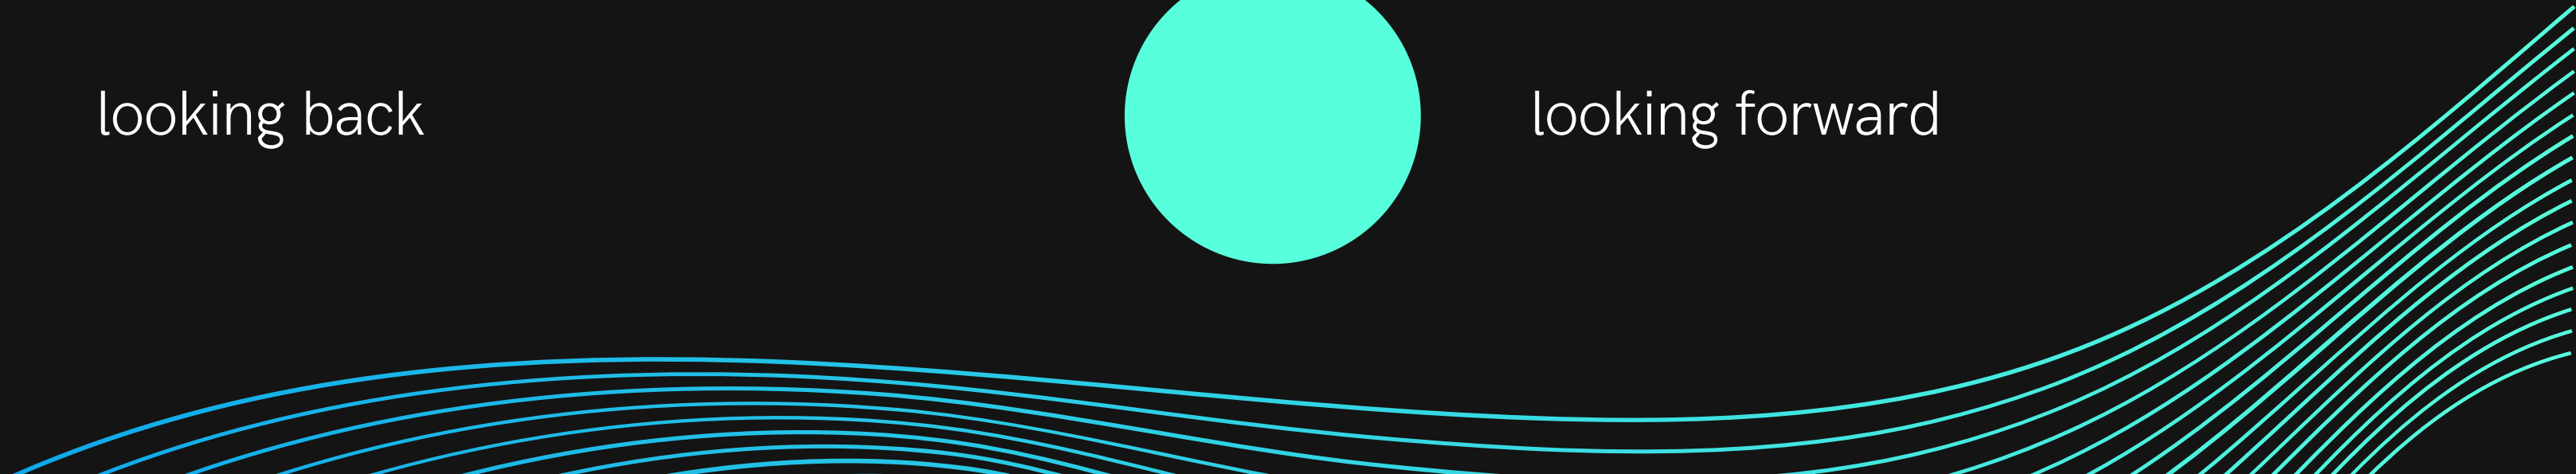

negative examples

looking back

looking forward

what works...

personal sacrifice

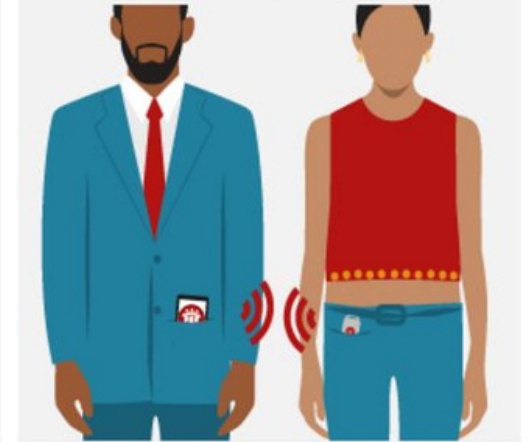

open and accurate communication

contact tracing

1. The TraceTogether token is carried in a bag or pocket

2. Bluetooth signals exchanged with other tags or app users nearby

3. Interactions kept for 25 days, then deleted

4. If user tests positive for Covid-19, tag must be handed to authorities for contact tracing

what doesn't work...

continuation of selfish behaviors

disconnect between science and government

failure to connect and collaborate
on an international scale

positive examples :)

swift and comprehensive action across the African continent

blending technology and testing in South Korea

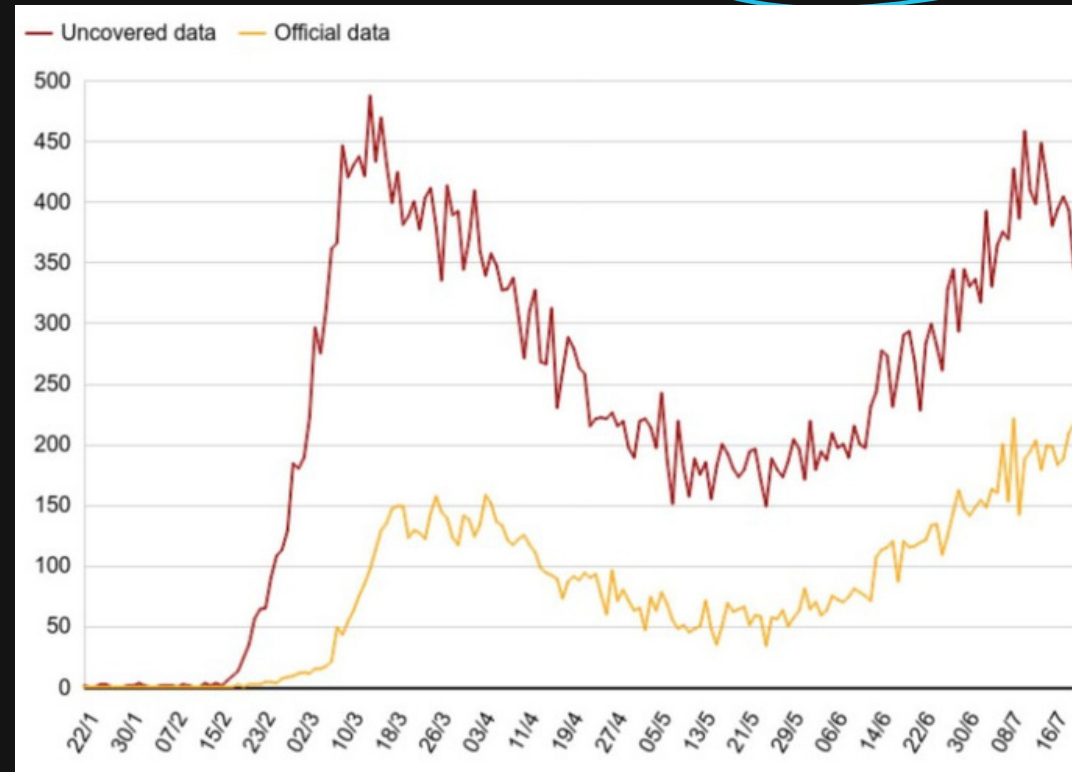

effective lockdowns in New Zealand

negative examples :(

mass graves dug in Brazil

inaccurate recording of data
in Iran

false optimism in India

in order to

looking back ...

...look forward
